Global Scuba Manufacturing of Texas LLC Announces New Central Texas Operations

PFLUGERVILLE, TEXAS – (April 22nd, 2015) Global Scuba Manufacturing of Texas LLC (GSMoT), a manufacturer of scuba diving products has opened a new manufacturing facility in Pflugerville, Texas. The facility will feature many of the products produced by the original Global Mfg. Corp of Wisconsin which serves and supports dive shops from around the world.

“I hope to carry on the legacy my father, Paul Schmitz who started Global Manufacturing in West Allis, Wisconsin 48 years ago,” said Global Scuba owner, J.P. Schmitz. “My father was committed to providing top quality products for dive store operations and stewardship. I plan to build on his same philosophy and continue providing essential products for the positive growth of the scuba diving industry.”

Paul Schmitz was an original member of the Diving Equipment and Marketing Association, (DEMA) and in 2012 received the Middle Coast award, which recognizes a Midwest dive enthusiast for their hard work in the local dive community.

J.P. Schmitz has been involved with Global Manufacturing for 35 years and has an extensive background in engineering. He has applied this expertise and knowledge by providing cutting-edge products using robotics, automation and engineering.

Many of the products offered by GSMoT have been staples for dive shop service and operations for decades. “Our goal is to continue providing dive shops with competitive pricing, exceptional customer service, and quality products,” continued Schmitz.

GSMoT products include test equipment, maintenance equipment and supplies, compressed gas fittings and assemblies, O-rings and paintball filling equipment. All products are offered through a secure, online ordering system.

GSMoT is headquartered in Pflugerville, Texas and is family owned and operated.
